TECHNOGRAFIA

Your translation partner, worldwide

The Competitive **Advantage**

Unlike many translation agencies, TECHNOGRAFIA LTD differentiates itself in that clients are able to **work with expert linguists rather than file-handling account managers.**

Our process **is clear**

Customer

The Customer contacts TECHNOGRAFIA LTD and assigns a project to be translated

Project Manager/Linguist

The Project Manager/Linguist coordinates, translates and/or reviews the project in direct contact with the client and/or the linguists.

Deliverables

All deliverables are undergoing internal checks by the responsible inhouse Project Manager Linguist based on each client's requirements.

Our QA is stringent

A stringent, multi-step Quality Assurance process that requires **expert linguists** as well as **technological tools**.

Clients

Our well-known clients include banks, law firms, motorcycle and automobile manufacturers, pharmaceutical packaging plants, medical devices manufacturers, robot systems manufacturers, consumer electronics manufacturers, e-commerce companies, software developers and many more.

Client Testimonials

In case we require text translated into Greek, we always turn to TECHNOGRAFIA LTD. Within the past couple of years of cooperation, we have received only positive experience. IT-oriented texts are always competent, professionally written and have high-quality in every detail. We intend to continue working with this company. Recommended to all!

Client Testimonials

We were looking for a partner to translate a mission-critical document from English to Greek. We had extremely high standards, as this is a very technical document whose target audience is our distributors and customers. We were very satisfied with TECHNOGRAFIA LTD and the services they provided. Indeed, they are very professional and engaged in providing high quality translation. The results are convincing: our in-country reviewer, a technical engineer, was extremely impressed! TECHNOGRAFIA LTD ranks amongst the top language companies we have ever worked with! We know we can trust TECHNOGRAFIA LTD with the most critical projects.

Client Testimonials

We manufacture many systems that are being sold abroad. In our quest for professional translation firm, we found TECHNOGRAFIA LTD. They have already been supporting us for over 10 years and proved right from the start that they always respected delivery times and we could rely completely on them. We are happy to keep working with TECHNOGRAFIA LTD in the future!
