Digitize Your Operations

Bring Value to Your Services

PCS Pension Portal

An innovative and interactive real-time digital app for Group Pension and Savings schemes management. The proposed app leverages the latest internet technologies for efficient support of front-office activities and communication between Pension Company, Savers, Employers or other parties.

This comprehensive system brings together all stakeholders in a secure and user-friendly online environment that digitizes processes and activities as well as communication among all relevant parties.

PCS Pension Portal

For Pension Funds & Employers

- Dramatically reduces administration costs
- Improves scheme management, streamlines workflow
- Professional reporting and management
- Ability to monitor pension fund performance
- Full Transaction history
- Provides up-to-date scheme information and investment performance data
